Hi Dora,

Please see the quarterly status report for the Microfilm Digitization Project as follows:

We did not experience any degraded unscannable film this quarter with the majority of the film being Polyester.

0% Compromised.

With the conclusion of production scanning of microfilm on 5/27/2022, this is the final report associated with the digitization effort.

The project team will report any record loss “as needed” should records be found to be compromised in the future.

**FINAL REPORT:**

SSA Microfilm Digitization Progress
